

The JT Group statement on the Paris Agreement

The JT Group supports the Paris Agreement to limit global warming to well below 2 degrees Celsius. We are committed to achieve Carbon Neutrality in our own operations by 2030, and Net-Zero for our entire value chain by 2050¹.

We encourage and engage with our stakeholders to support the Paris Agreement, as we work with them to achieve the net zero target for our entire value chain by 2050.

JT Inc. is a member of Japan Climate Initiative (JCI)², a decarbonization initiative from Japan with a belief that Japan can and should play a greater role in the world in realizing a decarbonized society, with a pledge to stand at the forefront of global challenges in order to realize the decarbonized society envisioned by the Paris Agreement.

Since 2022 and to date, the JT Group did not lobby against or respond to any government consultation on climate change policy.

This document will be updated by Sustainability Management Division of JT Inc. This document is endorsed by our Chief Sustainability Officer.
