※*Information as of Oct 2023*

Disclosure

Description of our approach to preventing and mitigating significant occupational health and safety impacts that are directly linked to business.

Health and safety on the farm is essential to our business. Our Leaf Production Technicians work closely with our directly contracted growers to improve health and safety. We do so through our Agricultural Labor Practices (ALP) program. We apply the same standards when working with our leaf merchants.

Exposure to hazardous substances and green tobacco sickness pose a particular risk to tobacco farming, so we take steps to prevent this through our ALP program. We also follow industry best practices set by CORESTA:

[Sustainability in Leaf Tobacco Production | CORESTA](#)

[Responsible Use of Crop Protection Agents \(CPAs\) in Tobacco Leaf Production | CORESTA](#)

[Identification and Elimination of Highly Hazardous Pesticides \(HHPs\) in Leaf Tobacco Production | CORESTA](#)

[Agricultural Labor Practices and Leaf Supply Chain Due Diligence](#)
